WCI FORUM

WCI FORUM

Voices of Change, Power of Unity

Founded by Mr. Utku Bengisu, the WCI Forum was established in 2012 with the goal of strengthening commercial connections between Turkish and African manufacturers.

By participating in the WCI Forum, you will have the opportunity to:

- ▶ Connect with Turkish manufacturers from a variety of sectors.
- ▶ Engage in B2B meetings over two days with some of Türkiye's leading companies and SMEs.
- ▶ Find high-quality and cost friendly products

BENEFITS OF TÜRKİYE AS A MARKET DESTINATION

Türkiye, with the world's 19th largest economy and a population of 83 million, has emerged as a key manufacturer in industries like automotive and textiles, benefiting from a young, dynamic workforce and strong geopolitical ties. Its compliance with EU quality standards enhances its manufacturing capabilities, making it an attractive partner for African businesses seeking high-quality, competitively priced products. Strategically located closer to Africa than China or India, Türkiye offers logistical advantages and long-term export services, making it an ideal choice for collaboration. Join WCI to unlock your potential with Türkiye!

WCI FORUM

TESTIMONIES

PROF. DR. ÖMER BOLAT

Türkiye Cumhuriyeti Ticaret Bakanı
Minister of Trade, Republic of Türkiye

Mr. Ömer Bolat, Turkish Minister of Trade

"Türkiye's strategy to develop trade, investment and economic relations with African countries is implemented by our government within the framework of the win-win principle."

Dr. Ismaila Ceesay // Minister of Information, Media, and Broadcasting Services // 13th WCI Forum

"I am happy to be in Istanbul to attend this WCI Forum. Trade between Africa and Türkiye has expanded very recently. So, this forum provides a platform to further enhance that relationship. This era is the era for Africa-Türkiye business relationships."

Tungeumbo Mboti // Namibia Investment Promotion & Development Board // 13th WCI Forum

"This is our first time attending the WCI Forum but from what I can see really, it is a good platform for connecting businesses. The event is well organized in terms of bringing all the manufacturers together."

Gbadebo Adefarasin, Nigeria // 13th WCI Forum

"I seized the opportunity to come to WCI to see how best I can utilize the presence of various organizations that are into telecommunications and some other things that benefit me, my company, and my people. It's been so fascinating and interesting, and I think it is going to be a routine thing for me to do."

Nada Sassi, Tunisia // 13th WCI Forum

"I am very happy to be at the WCI Forum today to rebuild the Turkish-Tunisian relationships, especially in business. Everything is going perfect, these kinds of forums are very important in rebuilding the relationships between Africa and Türkiye. "
